Delivery

How do I indicate my Ship-To Address?
Amazon will always fulfill your order based off of the ship-to address selected in Oracle. Like other suppliers, this address selection takes place after you have brought your cart back into Oracle. While in the Amazon Business experience, you may see a default address or choose from a list of default addresses that have been pre-configured by your Administrator. You can ignore this address if you do not see the correct option available. Your order will only ship to the address selected in your Oracle itself, not Amazon Business.

Does ordering through Oracle impact my delivery speed?
Your purchasing system may have built-in workflow approvals. If this is the case, your order will not be fulfilled until it is approved. At that time you will receive an email confirmation. Any delivery estimates on the checkout screen may not be applicable if the order is not quickly approved. This is applicable to Prime Eligible Orders as well.
Note: the delivery timeline for 3rd party sellers may vary.
